

A Letter of Thanks from Lawton Manor to our Pen Pals at Alsager Highfields Primary School

Hello everyone, we hope you are all keeping well and coping well with Zoom classes or enjoying being back at School. Happy New Year to you and very best wishes for 2021. We wanted to write to Alsager Highfields Primary School to say a huge Thank You for the wonderful letters you have written to us. It is very much appreciated especially by our residents.

At the moment we are keeping everyone safe here at Lawton Manor and so we can't invite people in to the home from the community just yet. However, when it is safe to do so we will invite you all to an afternoon tea at Lawton Manor. We think you will love meeting some residents and no doubt you'll enjoy the cakes and cookies too!

We have enjoyed the special month of December with the beautiful decorations all around the home. We had five Christmas trees in our lounges and dining rooms!

In reply and on behalf of some residents, we would like to pass some messages on to you

Michael said "I am delighted to hear about the children's hobbies"

Ann told us "She loved the fact the children enjoyed football as much as she does!"

The wellbeing of our residents is equally important to the care that residents receive, and we take time to understand what great care means to them, as well as to understand their individual likes and dislikes, to ensure that life in our home is as comfortable and filled with happiness as it can be. This careful planning normally begins with an assessment of overall needs by our highly trained team and this in turn, ensures that we are confident that we can meet the needs of new residents. Our in-house chefs are also part of this as we know how important good food and nutrition is. We serve three course meals for lunch and dinner!

Our home is filled with joy and we are all really excited about our plans for the New Year. Since the various lockdowns we have all become very “Tech-Savvy”. We engage in webinars and go on virtual trips around the world visiting museums and art galleries engaging in Q & A sessions too. Some residents have Face book portals so they can speak to their loved ones at any time and we have also installed a “Designated visiting suite” which is a Covid safe room with a sealed divider and an intercom with speakers for live conversation. This means residents can still see their family in the winter time because we can’t do this in the garden at this time of year.

Here are some photos taken around our home
